Questions: zsadon.ferenc@euroil.eu

THE PROBLEM

- Desire for animations about designed power plant, biochemical plants .. etc.
- Rendering time is too high.

SUCCESS STORY DETAILS

HPC provider: KIFÜ

Domain Expert: Ferenc Zsadon

Country: Hungary

THE HPC PROBLEM DOMAIN

How to ->

Run Blender in HPC/SLURM environment

SBATCH code

Multi-node SLURM job for Blender

Set GPUs into operation (Python code)

THE SOLUTION

Rendering frames of blender file on N nodes and on Nx3 GPUs in HPC.

THE BENEFITS

More rendering capacity

Blender-HPC know-how

Blender-SLURM know-how

Same GPUs – less bad frame-similar frames
